TJMay ★★★★★

These are awesome!

My son loves swimming and he loves numbers.... letters not so much so I figured if I could get him to like to play with these it would help him learn his letters better (before we start PreK) and its working. He loves to dive to the bottom for them. Sometimes he likes to use the cards and sometimes he doesn't but I don't care how we play with them as long as we are playing and he is learning to recognize his letters. We have had them for about 3 weeks now and he is getting SO good! He can throw the whole set in the pool and dive each one out and recite the letters correctly. At the start of this he knew maybe 5/6 and had trouble with any that looked similar (Q,O or W and M, ect)

Mom ★★★★★

Best diving game ever!

Highly recommend this diving game. Purchased for my daughter who is working on letter recognition and sight words but has also just learned how to swim underwater. Could not believe how perfect this product is to be able to practice reading skills AND playing in the pool. The whole family has played and it results in laughter every time. Could modify for older kids that are beyond the level of the words included on the sturdy and colorful waterproof cards by having them dive for letters to spell out their spelling words without a card for reference. BEST. GAME. EVER.
